

ROMANIA

Unilateral Commitments assumed at the Seoul Nuclear Security Summit

(Seoul, 26 – 27 March 2012)

- 1. Invitation of an IAEA International Physical Protection Advisory service (IPPAS) mission** with the aim to certify that the national practices in the field of nuclear security and safety (with respect to the Nuclear Power Plant in Cernavoda) are in conformity with the most recent international standards, as well as to identify practical modalities of improvement, if necessary.
- 2. Romania stands ready to provide assistance / expertise** as “lessons learned” from the national experience in the conversion of research reactors from HEU to LEU, repatriation of HEU in the countries of origin and safety of radioactive sources.
- 3. Romania will make a voluntary contribution to the IAEA Nuclear Security Fund.**
